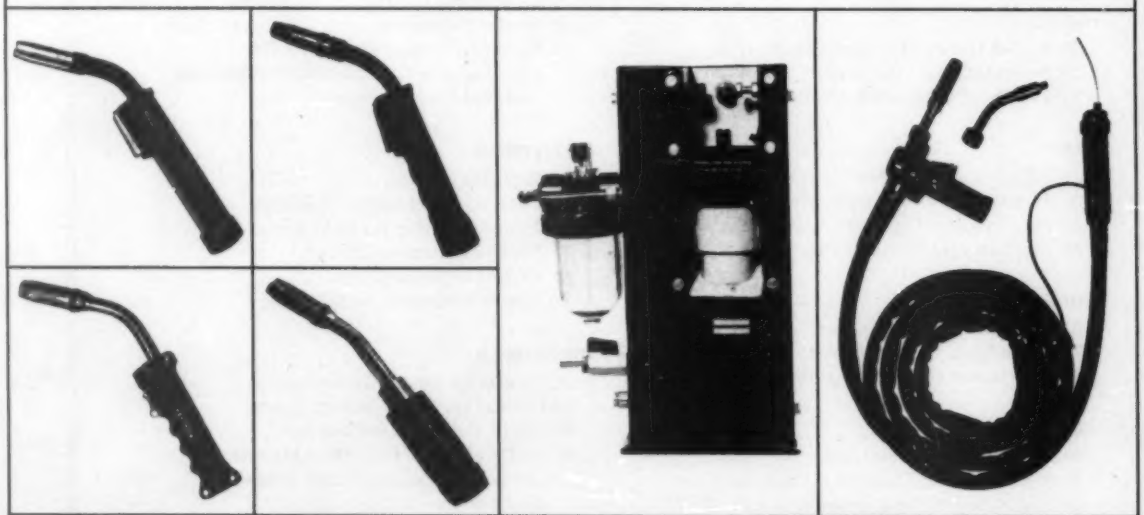
WE STAND FOR QUALITY AND CUSTOMER SATISFACTION



K & K Brothers offers a complete line of MIG Welding Guns, water and air-cooled from 150A to 600A Semi-Automatic, Robot Fully-Automatic, and a Nozzle Cleaning Station for Robotic welding and Semi-Automatic welding. Push-Pull Guns are available in 250A air-cooled, and 350A water-cooled. Length up to 36 feet. Adaptable for most available wire feeders.

For complete information, call or write:

"Great arc characteristics for MIG, TIG, stick welding." SHOPMASTER™ 300.

Outstanding constant current/constant voltage (CC/CV) arc characteristics for semiautomatic and manual welding in fabrication or repair jobs. SHOPMASTER™ 300 delivers: 300 amps dc CC/CV at 50% duty cycle for gas metal arc (MIG), shielded metal arc (stick) and gas tungsten arc (TIG) welding. Also 200 amps 40% duty cycle, balanced squarewave ac, CC output for stick, and ac TIG with optional HF unit.

Compact 30¾" (781 mm) H, 19¼" (489 mm) W, 27" (686 mm) D.

Solid state contactor and controls for long service life in highly repetitive applications.

Remote/panel control for amperage/voltage. Variable arc control. Digital voltage controls (optional) allow operator to preset and monitor MIG welding voltage. Complete line of remote controls (optional).

Easy to install in most facilities: single phase, 60 Hz, tri-input voltage (200/230/460V ac).

Welding power remains constant with line voltage compensation, even if input voltage fluctuates ± 10%. Thermal overload protection.

Ask about: 9½ min. demonstration VHS video "SHOPMASTER 300." Miller lease/finance plan. Free literature. Call your Miller distributor in the Yellow Pages under Welding Equipment & Supplies. Or write Miller Electric Mfg. Co., P.O. Box 1079, Appleton, WI 54912.

A Miller Group Ltd. Company

Simplify in-plant cylinder handling

Stop lifting heavy fuel gas cylinders and save time and money with ruggedly built Kaddy-Karts from H&H.

Kaddy-Karts are available in two basic styles. Both are designed for easy movement with an overhead crane or your forklift truck and have a low profile design which makes them easy to load and maneuver.

H&H Kaddy-Karts feature a rust-inhibiting primer coat and a "pallet-type" bottom for quick fork alignment. Casters and a convenient towing hitch are available.

Serving industry since 1951

BUY ME
YOU'LL FEEL THE DIFFERENCE

THE PORTABLE LIGHTWEIGHT MODEL TI SERIES SPLIT FRAME OD PIPE CUTTING AND BEVELING TOOLS COMBINE UNIQUE FEATURES :

- RADIAL CLEARANCE 3-4"
- NO LOOSE PIECE TO HANDLE
- INTEGRAL PNEUMATIC DRIVE AND ENCLOSED GEARS
- SELF-CENTERING
- BUILT-IN BEARING SYSTEM
- AUTOMATIC RADIAL IN-FEED
- SINGLE-POINT AND COUNTERBORE ATTACHMENT AVAILABLE
- UP TO SCH 160
- CUSTOMIZATION POSSIBLE
- AVAILABLE IN DIFFERENT SIZES FROM 1/2" TO 20"
- EASY SET-UP
